# INTRO DUCTION

This past 27 and 28 May, in Hall 8 of the Fira Monjuc in Barcelona, Autumn Winter 16 17 reached into the denim galaxy to trace out constellations that connect people, link know-hows and encourage explosive close encounters of a third kind.

These imaginary lines explore alternative realities where the imagination encourages research and personalisation. Sensitive or visionary products, where the energy of light mingles with the manipulation of elements, reinventing the past and looking ahead to an unexplored future.

**CONTENTS**

This constellation shows its face to newly arrived travellers. On the hunt for unknown treasure, they tread over a land full of promise, renewal, and unexpected discovery. They experiment with natural resources and materials to battle the elements of a hostile and mysterious environment.

# ANOTHER MOON

© Pangenerator

On a replicating planet,  
boarding for a journey to  
the future and indigo 3.0 is  
about to begin.  
Technical blues and metallics  
play on performance, and  
variations in lengths lend a  
disproportion to silhouettes,  
like an extension to infinity.

© Kevin Osmond - Dripscape N°3

# ADVANCED PERFORMANCE
